Projects

Personal Portfolio Website

Developed a dynamic personal portfolio website to showcase my web development skills, projects, and professional experience. The site features a modern design and is fully responsive, providing an engaging user experience.

Github: https://github.com/tajwone17/My-Portfolio

Live : https://tajwone-portfolio.netlify.app/

News Website

I've developed a React-based news application that fetches and displays top headlines from various categories using the News API.

Github: https://github.com/tajwone17/News-Monkey

TextUtils - A Versatile Text Manipulation

TextUtils is a versatile tool designed to make text manipulation a breeze. Whether you need to count words, characters, or sentences, remove extra spaces, or eliminate double words, TextUtils has got you covered. This tool is a handy addition for anyone who works with text regularly.

Github: https://github.com/tajwone17/text-utils

Live : https://textutils-tc.netlify.app/

Amazon Clone Website

An impressive Amazon clone website developed entirely with HTML and CSS! This project has been a fantastic journey in enhancing my frontend skills and refining my design abilities.

Github: https://github.com/tajwone17/amazon-clone
